PEC end caps
Heat Shrinkable caps with adhesive
Pinched End Cap 3:1, PEC-Series

Features and Benefits
The PEC-Series can be applied fast and easy like a standard heat shrink tube. The inner adhesive layer and the adhesive plug provide a good and secure water protection. The optimal shrink ratio of 3:1 and different diameters allow a wide range of application. Other diameters and lengths are available on request.

Application
Pinched End Caps can be used for mechanical and environmental protection of stub splices in electrical harnesses. Due to the fast and easy installation, these caps can be used for non-electrical applications as well.

Material Data
- Material: Polyolefin, cross-linked (POX)
- Colour: Black (BK)
- Shrink Ratio: 3:1
- Minimum Shrink Temperature: +120 °C
- Operating Temperature: -45 °C to +125 °C
- Softening Point Adhesive: +85 °C
- Dielectric Strength: 15 kV/mm according to IEC 60684 P2
- Flammability: self extinguishing in 30 seconds according to SAE-AMS-DTL-23053/4
