

- With TLC technology:
- Low user impact
 - Minimum effort
 - Protects muscles and joints
 - Ergonomically advanced

The new EVO9 heavy
duty application tool

Maximum performance and minimum effort.

The EVO family delivers maximum performance whilst protecting muscles and joints.

The next generation of application tools impresses with its advanced technology.

With the EVO family, HellermannTyton has developed a truly ergonomic cable tie application tool that is unique in the market, perfectly combining convenience with function. **The heart of the EVO family is the innovative and patent-pending TLC technology (Tension / Lock / Cut).** This is designed to revolutionise the application of cable ties by reducing the effort required for cutting. The EVO family cuts cable ties with ease, delivering a flush clean finish with no excess strap, whilst significantly reducing physical strain on the user.

The patent-pending TLC technology delivers increased productivity:

- Application force and effort is significantly reduced
- Precise cutting of the cable tie right at the head
- Smooth fastening of the cable tie without recoil
- Reduced long-term health issues due to lower recoil shock on the operator and reduced effort

Heavy duty equipment with only 330 grams.

Simple blade replacement

Large slot to facilitate cable tie insertion

Lightweight, fibreglass-reinforced plastic housing

Tensile lock to maintain a required setting

Tensile force setting (levels 0 to 8)

i **Quick adjustment:** Move three whole stops at a time, to quickly jump between higher and lower tension settings.

Ergonomically designed handle for a secure and comfortable grip

Ergonomically designed trigger for ease of use

Application video: EVO9 family

EVO9/EVO9SP

The EVO9 is available in a standard grip span 90 mm (EVO9) or short grip span 80 mm (EVO9SP), for smaller hands. Both tools perform between 53N and 307N. The EVO9 and EVO9SP were designed to apply HellermannTyton cable ties from 50 lbs. until 255 lbs. with a maximum width of 13 mm.

- Standard grip span (90 mm) and short grip span (80 mm) available
- Ergonomic, slip-proof handle for a comfortable and secure grip
- Extremely low maintenance
- Fast and precise application with minimum effort (TLC mechanism)
- Convenient and simple tension adjustment
- Integrated 3 position quick adjustment override
- Housing made of resilient and lightweight glass fibre-reinforced polyester

EVO9/EVO9SP: tension settings

EVO9HT

The EVO9HT is the “high tension” version of the EVO9 family. Developed for maximum tensile strength this tool performs between 120N and more than 516N. The tool was designed to apply HellermannTyton cable ties from 120 lbs. until 255 lbs. with a maximum width of 13 mm.

- EVO9 HighTension version with higher tension force than EVO9
- Ergonomic, slip-proof handle for a comfortable and secure grip
- Extremely low maintenance
- Fast and precise application with minimum effort (TLC mechanism)
- Convenient and simple tension adjustment
- Integrated 3 position quick adjustment override
- Housing made of resilient and lightweight glass fibre-reinforced polyester

EVO9HT: tension settings

The rEVOLUTION of perfect processing with TLC technology (Tension / Lock / Cut).

Perfect cutting made easy with the EVO family:

From precise preliminary settings to the perfect cut, the EVO family allows for an even lighter, gentler and easier cable tie application than ever before. The patent-pending TLC technology makes all the difference!

1. Tension

Tension the cable tie as usual. Use the tension adjustment knob to select the desired tension setting.

2. Lock

The patent-pending locking mechanism detects when the desired tension is reached, locking the tie in place prior to cutting. No manual pressure is required to hold the cable tie in place.

3. Cut

For the final cut, very little effort is needed. By simply pulling the trigger enough to cut the tie, a precise finish can be achieved without excessive strain on the user.

A complete solution –
the new EVO9 tools and accessories.

EVO9

- Standard hand span: **90 mm**
- For HellermannTyton cable ties, up to 13 mm width

Article-No. 110-80002

EVO9SP

- Short hand span: **80 mm** for smaller hands
- For HellermannTyton cable ties, up to 13 mm width

Article-No. 110-80003

EVO9HT

- High tension tool
- For HellermannTyton cable ties, up to 13 mm width

Article-No. 110-80017

Replacement Blade

- Replacement Blade for EVO9, EVO9SP and EVO9HT

Article-No. 110-80037

CALTOOL

- Calibration Tool for EVO family
- Tool for manually pre-setting the tension force

Article-No. 110-70089
